

Appendix 4

Quality of care focus group 17th February 2016

(Interview schedule taken from the transcript)

- Q1. Is everyone here registered with a GP or do people still access their consultant?
- Q2. When you visit your GPs do you see the same one all the time?
- Q3. Does your GP know about your HIV status?
- Q4. How do you find the attitudes in the GP clinic?
- Q5. If you are unhappy with your primary care experience, what can you do?
- Q6. Does the GP refer you to specialist services when you request or when it is required?
- Q7. Do you prefer to use the GP as opposed to using your HIV clinic?
- Q8. How is the communication between the GP and the HIV clinics?
- Q9. Do you and your GP have a care plan that you produced together? That includes signposting to other healthcare teams and self management, and is being reviewed at regular intervals?
- Q10. Has anyone ever experienced anxiety, depression, panic attacks or any other similar problems?
- Q11. Have you ever sought help for this condition from the GPs or do you access support from the clinic? What were your experiences, what influenced your decision?
- Q12. How comfortable do people feel talking about their sexual health or similar issues with their GP?
- Q13. Where do you attend for sexual health screening, and what are the reasons for your choice?
- Q15. How would you like your healthcare services to look like in the future? (different models presented and discussed).
