# **HIV Services in the 21<sup>st</sup> Century – specialist care in a low-cost NHS**

## **A commissioner's perspective**

Claire Foreman

London Specialised Commissioning Group

# Conditions for Commissioning

London Specialised Commissioning Group

- Increased demand for services and treatment
- Ageing population, changing needs
- Opportunities in technology
- Patient participation and clinical engagement
- Focus on quality, equity & evidence based care
- Managing supply – standards and networks
- Improving outcomes
- No growth in funding

As for all other conditions, this is the challenge that faces HIV services in the 21st century

# Commissioning vision for HIV services

- Prevention is key
- Empowered patients
- Clinical leadership
- Equitable access for the best outcomes
- Pathway redesign and service reconfiguration for integrated care
- Innovation and use of technology
- Specifications, QIPPs, CQUINs and dashboards
- Surveillance and tariff

# HIV services in the 21st Century **NHS**

## – better than ever?

London Specialised Commissioning Group

- Focused on current and emerging needs
- Enabling people to live normal lives
- Doing things differently - technology and innovation
- Generic drugs
- Data driving payment
- Reduced cost, increased productivity

London Specialised Commissioning Group

# Thank You
