# Long acting Injectables Implementation in England

Jonathan Roberts

Clinical Nurse Specialist IN HIV care/ HIV Screening co-Ordinator  
Lawson Unit – University Hospitals Sussex NHS Foundation Trust

## Conflict of Interest

In relation to this presentation, we declare that we have no conflict of interest

Speakers are required by the Federation of the Royal Colleges of Physicians to disclose conflicts of interest at the beginning of their presentation, with sufficient time for the information to be read by the audience. They should disclose financial relationships with manufacturers of any commercial product and/or providers of commercial services used on or produced for patients relating to the 36 months prior to the event. These include speaker fees, research grants, fees for other educational activities such as training of health professionals and consultation fees. Where a speaker owns shares or stocks directly in a company producing products or services for healthcare this should also be declared. Finally, other conflicts of interest including expert functions in health care or healthcare guidance processes should be declared (eg if the professional is a member of a health board). The Federation considers it good practice to also make speakers' disclosures available in digital format(s) relating to the educational event.

**Background**  
NICE Approval Jan 2022

# First long-acting injection for HIV approved

18 November 2021

## Data Search

- Undetectable VL
- No resistance or virological failure to NNRTIs
- No resistance or virological failure to INSTIs
- Hep B core AB negative & Hep B sAg negative
- How many of above have latest BMI result <30 -re Subtype A6/A1
- **Establish working group**

**nam** aidsmap  
The basics  
Undetectable viral load

## Data Search

- Undetectable VL
- No resistance or virological failure to NNRTIs
- No resistance or virological failure to INSTIs
- Hep B core AB negative & Hep B sAg negative
- How many of above have latest BMI result < 30 --re Subtype A6/A1
- Cohort <40 v/l /No resistance / No Hep B =1336/ 2546
- <30 BMI =1039/ 1336
- > 30 BMI = 250 /1336
- 47 No BMI= 47/1336

## Pathway

- Identify potential patients
- Complete Injectable info details
- Add to Viral Load meeting list
- If eligible add to Injectable list for CNS/ Pharmacist to contact
- Contact check suitability / reiterate info
- Book Pharmacist –discussion oral lead –in
- If proceed book in CNS injectable clinic

### Consultation

Summary | Results | **Consultation** | Health Checks | Drug Therapy | Medical History | Sexual Health | Obs and

#### Consultation details

Reason for injectable treatment:  
VL<50 copies/mL > 6months:  
Known or suspected resistance to NNRTVNI:  
Failure or unplanned treatment stop with NNRTVNI:  
INSTI monotherapy ever:  
Hep B status SAg/core AB:  
If subtype A6/A1, BMI <30kg/m2:  
Commits to schedule:  
Accepts small risk of virological failure:

Potential patients	1039	VL <40	abnormal blood results	Reasons
Reviewed patients	115	107		
Unsuitable	29	26	3 x detectable viral load	Weight Hep B vax
Declined	4	4		2 resistance 2 schedule
Paused	36	36	4x viral load blips 2xLFTs	Oral meds/ Resistance tests
Awaiting contact	13	13		
Ilana	14	14		X2 potential
Booked oral lead in	5	5	0	
Started injectables	13	12	2	1 v/l detectable – 10,00,000 off license –Public Health
Discontinued	1	1	0	Side effects

## Implementation Issues

- Staffing –Nurses/Pharmacists
- Training
- Ilana Study
- Capacity
- Community
- Business Case

- **Brighton**  
Ilana = 13 NHS = 20
- **Eastbourne = 3**
- **Hastings = 3**
- **Crawley = 0**
- **Worthing = 1**
- **Chichester = 0**

**Personal Experience of  
being on Long acting  
Injectable ARVs**

**Thank you**  
**Any Questions**
